STATE OF THE ART WELLNESS CENTER

Bethel recently completed a brand new state-of-the-art Wellness Center. The 22,500 square-foot facility that features 6,000 square feet of weights, 5,500 square feet for biokinetic testing and lab spaces, 45 cardio machines, and 40 yards of indoor turf, has transformed the workout capabilities of Bethel University student-athletes. This facility not only enhances our ability to prepare for athletic competition, it also provides numerous opportunities to connect with the entire campus community.
